## Access our DApp with AirsaveCoin (AST)

Use AST to access our decentralised travel saving app (Airsave Travel), so you can earn money for all your travels.

AST token holders can also keep hold of their coins for long term value, or use it to trade on the exchange market.

If you choose to pay the monthly fixed fee in fiat into our DApp, it can be exchanged for some of the 125 million AST post-ICO, where it can grow in value and earn returns for you.

Post - ICO the limited amount of AirsaveCoin tokens in existence will continually appreciate in value as the site's user volume increases.

(Our centralized version of Airsave Travel is available on the Apple App Store and has amassed more than 4,000 downloads - you can [download it here.](#))

Our ICO is being raised by founders based in London, UK.
